Mixture Basics Mixtures are absolutely everywhere you look. Most things in nature are mixtures. Look at rocks, the ocean, or even the atmosphere. They are all mixtures, and mixtures are about physical properties, not chemical ones. That statement means the individual molecules enjoy being near each other, but their fundamental chemical structure does not change when they enter the mixture.

Biochemistry is one of the crossover fields of chemistry. Biochemists have to understand both the living world and the chemical world. Even if you don't want to become a biochemist, you'll still have to understand atoms and molecules as a biologist. You'll also have to know about organic chemistry; a much bigger area of chemistry. The key thing to remember is that biochemistry is the ...
