Macroeconomics definition is - a study of economics in terms of whole systems especially with reference to general levels of output and income and to the interrelations among sectors of the economy.

### **Definition of MACROECONOMICS - Merriam-Webster**

In economics, elasticity is the measurement of the proportional change of an economic variable in response to a change in another. It shows how easy it is for the supplier and consumer to change their behavior and substitute another good, the strength of an incentive over choices per the relative opportunity cost.
