Water - Thermophysical Properties

Temperature Expansion Coefficients of Piping Materials Expansion coefficients for common materials used in pipes and tubes - aluminum, carbon steel, cast iron, PVC, HDPE and more

Temperature Expansion Coefficients of Piping Materials

Designed for the realities of life in the field, the Seek Reveal combines an advanced thermal imaging camera with a high performance LED light in one compact, rugged, and reliable device.

Seek Thermal Reveal - Ruggedized, All-Purpose Thermal ...

Global area-averaged lower tropospheric temperature anomalies (departures from 30-year calendar monthly means, 1981-2010). The 13-month centered average is meant to give an indication of the lower frequency variations in the data; the choice of 13 months is somewhat arbitrary... an odd number of months allows centered plotting on months with no time lag between the two plotted time series.
