How Did Evolution Begin? - Phys.org

For many years, the dominant theory had been the RNA-first model: evolution would have started based on self-replicating RNA molecules. The challenge with this model is to explain how free-floating RNA molecules could keep finding the right compon...

When did evolution start? - Quora

Best Answer: Remember a scientific theory isn't any old regular theory. "There is a God" is a theory. "Evolution is the truth" with all the evidence added alongside it would be a scientific theory, and much more valid. Side point, you're right about many Theists not being able to grasp biology. I've seen ...
