Student online book exchange results page. The primary focus of this text is to empower
management students with statistical decision-making skills so that they become active
participants rather than passive observers in business situations in which statistical findings are
reported and discussed as part of a management decision-making process.

Transport or transportation is the movement of humans, animals and goods from one location to
another. In other words the action of transport is defined as a particular movement of an organism
or thing from a point A to a Point B. Modes of transport include air, land (rail and road), water,
cable, pipeline and space. The field can be divided into infrastructure, vehicles and operations.
