Best Answer: Those astronomy instructors always seem to want the impossible. It sounds like you got the basic assignment accomplished and the intent of the lesson. Now you are waiting on the weather. My suggestion is don't cheat and take the data your asked to get from some book or computer planetarium ...

### **Astronomy Lab help ... - Yahoo Answers**

The labs in Astronomy 113 are best done in groups. For that reason, you will team up with at least one other lab member (but no more than 3) to go through the lab together. This is another good analogy to real world astronomical research: Most projects in astronomy require collaborations between people with different expertise.
