Soda ash is the common name for sodium carbonate, a chemical compound frequently used in manufacturing, industry, and even around the house. Glass production is one of the primary uses for sodium carbonate. Detergents and cleaning agents may also make use of it, and it can be used in cooking or as a food additive, as well.

What is Soda Ash? (with pictures) - wisegeek.com

Q. What is the difference between a detector tube and a dosimeter tube?: A. Both detector tubes and dosimeter tubes contain a color-changing material that is specific for the chemical or family of chemicals that it is designed for and will generally have a graduated scale to display the concentration of the vapor.
