"With the improvements in the bearing, and especially with the addition of the silicone damping system, the Mk.VI edition not only retains the Oracle Delphi's position as one of the most beautiful turntables in the world; it reestablishes it as a formidable contender in and well beyond its price class."

Oracle Delphi MkVI Second Generation

Pressure (symbol: p or P) is the force applied perpendicular to the surface of an object per unit area over which that force is distributed. Gauge pressure (also spelled gage pressure) is the pressure relative to the ambient pressure.. Various units are used to express pressure. Some of these derive from a unit of force divided by a unit of area; the SI unit of pressure, the pascal (Pa), for ...

If your titanium frame clicks when you're pedaling hard or climbing, check your bottom bracket. Solution: Usually, this click is caused by either a loose or inadequately lubed bottom bracket. Remove the crankarms and with the appropriate tools for your type of bottom bracket, remove the bottom bracket, lube the surfaces in contact with the frame and reinstall the BB making sure it's tight.

A rivet is a permanent mechanical fastener. Before being installed, a rivet consists of a smooth cylindrical shaft with a head on one end. The end opposite to the head is called the tail. On installation, the rivet is placed in a punched or drilled hole, and the tail is upset, or bucked (i.e., deformed), so that it expands to about 1.5 times the original shaft diameter, holding the rivet in place.
