(NaturalNews) Ask any scientist where life on our planet came from, and they'll usually give you a one-word answer: "Evolution." Immediately thereafter, they will usually give you a condescending look that also implies you're an idiot for not knowing this "scientific fact" that everyone else has accepted as true.

Huge contradictions in 'scientific' thinking revealed ...

Life history theory is an analytical framework designed to study the diversity of life history strategies used by different organisms throughout the world as well as the causes and results of the variation in their life cycles. It is a theory of biological evolution that seeks to explain aspects of organisms' anatomy and behavior by reference to the way that their life histories—including ...

Life history theory - Wikipedia

The creation–evolution controversy (also termed the creation vs. evolution debate or the origins debate) involves an ongoing, recurring cultural, political, and theological dispute about the origins of the Earth, of humanity, and of other life. Creationism was once widely believed to be true, but since the mid-19th century evolution by natural selection has been established as an empirical ...

Creation-evolution controversy - Wikipedia
