This guide attempts to simplify a very complex subject. The HETL has applied Code Names to help to identify tests: i.e TEST "A" -TEST "X". We also offer recommendations for testing and guidelines to help you choose what test for what kind of problem (bad odor, taste, staining or suspected contaminants [i.e, Arsenic, MTBE etc]).

Maine Health and Environmental Testing Lab - Private Water ...

Total organic carbon (TOC) is the amount of carbon found in an organic compound and is often used as a non-specific indicator of water quality or cleanliness of pharmaceutical manufacturing equipment. TOC may also refer to the amount of organic carbon in soil, or in a geological formation, particularly the source rock for a petroleum play; 2% is a rough minimum.

Total organic carbon - Wikipedia

Eurofins TestAmerica is the leading environmental testing laboratory in the US, with over 80 locations delivering innovative technical expertise and analytical testing services.

Pearson, as an active contributor to the biology learning community, is pleased to provide free access to the Classic edition of The Biology Place to all educators and their students.

Pearson - The Biology Place - Prentice Hall

An infant reference range has not been experimentally determined using our current PTT reagent. The PTTs of normal infants are longer than those of adults due to lower factor levels in the first months of life; the infant reference ranges provided (5 days, 3 months) are based on published literature (Ref: Andrew M et al. Blood 1987; 70-165).
