Health effects Relation to diet. Although certain levels of antioxidant vitamins in the diet are required for good health, there is still considerable debate on whether antioxidant-rich foods or supplements have anti-disease activity. Moreover, if they are actually beneficial, it is unknown which antioxidants are health-promoting in the diet and in what amounts beyond typical dietary intake.

Antioxidant - Wikipedia

Performing medical tests and ensuring excellent water quality are essential to caring for the animals at the Aquarium. Students will use microscopes to study blood samples and measure water quality parameters to deduce the causes of illness in various animals at the Animal Care and Rescue Center.
