The Critical Analysis A Sample

Critical discourse analysis (CDA) is an interdisciplinary approach to the study of discourse, or put simply talk and text, that views language as a form of social practice. Scholars working in the tradition of CDA generally argue that (non-linguistic) social practice and linguistic practice constitute one another and focus on investigating how societal power relations are established and ...

Each CSF should be measurable and associated with a target goal. You don't need exact measures to manage. Primary measures that should be listed include critical success levels (such as number of transactions per month) or, in cases where specific measurements are more difficult, general goals should be specified (such as moving up in an industry customer service survey).
