Sustainability is more than just recycling or conservation. Our solutions to everything have to be  
sustainable-- eradicating poverty, feeding the hungry, preventing disease, educating girls, etc. At  
Rutgers, we have environmental experts, health experts, and policy experts, and the boundless  
energy and enthusiasm of students.

### **R U Sustainable? @ Rutgers**

Sustainability Definition ASCE • Sustainability- set of economic, environmental and social conditions  
in which all of society has the capacity and opportunity to maintain and improve its quality  
of life indefinitely, without degrading the quantity, quality or the availability of natural resources  
and ecosystems.

### **Sustainability Rating System - colorado.apwa.net**

An important element in improving the environmental sustainability of road trans- portation  
projects is the use of new technologies, processes, and products that directly enhance the projects'  
environmental and economic sustainability through reduced consumption of energy and material.

### **IMPROVING ENVIRONMENTAL SUSTAINABILITY IN ROAD PROJECTS**

Sustainable solutions. New business ideas and new ideas on business. Abstract: The transition  
towards sustainability calls for a radical change, i.e. a systemic discontinuity. At a local scale, to  
promote this discontinuity means to generate low material intensive and highly context-related  
socio-technical systems.

Environmental Sustainability Solutions. Carbon Footprinting Services that quantify, reduce and label  
based on current standards. Sustainability tools that place environmental and social assessment in  
your hands. Social Responsibility Services that advance and communicate your sustainable  
development.

### **Environmental Sustainability Solutions - Intertek**

Sustainability. Sustainability is the process of maintaining change in a balanced fashion, in which  
the exploitation of resources, the direction of investments, the orientation of technological  
development and institutional change are all in harmony and enhance both current and future  
potential to meet human needs and aspirations.
