Positivism is a philosophical theory stating that certain ("positive") knowledge is based on natural phenomena and their properties and relations. Thus, information derived from sensory experience, interpreted through reason and logic, forms the exclusive source of all certain knowledge. Positivism holds that valid knowledge (certitude or truth) is found only in this a posteriori knowledge.

Positivism - Wikipedia

An object is a technical term in modern philosophy often used in contrast to the term subject.A subject is an observer and an object is a thing observed. For modern philosophers like Descartes, consciousness is a state of cognition that includes the subject—which can never be doubted as only it can be the one who doubts—and some object(S) that may be considered as not having real or full ...

Object (philosophy) - Wikipedia

Neil deGrasse Tyson talked of “a God of the gaps” when it comes to believing in a God. Many individuals, particularly of religious persuasion, believe that simply because science has yet to answer every question, it is a reason for believing in a theistic religion.
