2.1.8 Scanners. A scanner is a device that copies hard copy information (printed page, graphic image, photograph etc) into digital data, translating the information into a form a computer can store as a file. Thus it is possible to make a digitised copy of a printed page, graphic image or photograph. Simple graphic images are usually stored in a format known as GIF.

### English Module 2.2
Property, in the abstract, is what belongs to or with something, whether as an attribute or as a component of said thing.In the context of this article, it is one or more components (rather than attributes), whether physical or incorporeal, of a person's estate; or so belonging to, as in being owned by, a person or jointly a group of people or a legal entity like a corporation or even a society.

Empathy begins with "engaged curiosity about another's particular emotional perspective." 1 Empathetic listening builds on the concept of empathy and allows one to be fully present for another person's experiences. When empathetic listening is used in health care, patients and families are often more satisfied and more open to hearing their physician's advice.

The cranium (skull) is the skeletal structure of the head that supports the face and protects the brain. It is subdivided into the facial bones and the brain case, or cranial vault ().The facial bones underlie the facial structures, form the nasal cavity, enclose the eyeballs, and support the teeth of the upper and lower jaws.
